PLUG-IN HYBRID RANGE

ALLURE BORN TO DRIVE

*Overseas models shown

BOLD ELEGANCE

The power and appeal of the PEUGEOT 508 GT Plug-In Hybrid (PHEV) is instantly unmistakable and available as a spacious Sportswagon or stylish Fastback.

With their low-slung bodies, tautly drawn lines and muscular, steely style, the PEUGEOT 508 GT PHEV Fastback & Sportswagon possess a sleek and innovative spirit.

Their refined designs also boast premium GT detailing and the latest-generation PEUGEOT lighting signature.

Inside, the sophisticated styling continues with a beautifully appointed interior cabin featuring contemporary materials and truly opulent seating trimmed in high-grade full grain Nappa leather¹.

1. Leather appointed seats are a combination of genuine leather & synthetic materials for durability and are not wholly leather.

DESIGN & TECHNOLOGY

PEUGEOT i-Cockpit™

Take the controls in the PEUGEOT i-Cockpit™ and experience the very latest in car interior design, with a compact multi-function steering wheel, configurable 12.3" head-up digital instrument panel and 10" high definition touchscreen - all ensuring that any journey, no matter the distance will be a delight.

STAY CONNECTED

Replicate your Apps on the 10" HD capacitive touchscreen using Apple CarPlay® & Android Auto™¹. Travel with complete peace of mind with connected navigation equipped with voice recognition, as well as the ability to locate charging points compatible with the PEUGEOT 508 Plug-In Hybrid.

CLEVER STORAGE

Numerous intelligent storage spaces are laid out around the cabin. At the front, door pockets combine with a wealth of storage in and around the centre console. While the rear passengers' items are also within easy reach.

1. Compatible Apple® or Android™ device required.

*Optional sunroof shown.

PLUG-IN HYBRID TECHNOLOGY

e-EFFICIENT AUTOMATIC

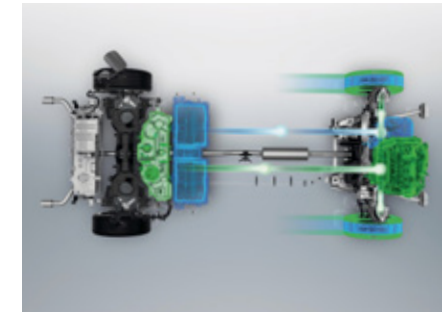

The PEUGEOT 508 GT Plug-In Hybrid is equipped with the new electrified Efficient Automatic 8 speed Transmission (e-EAT8) offering rapid and smooth gear shifts, with the option to manually change gear using the paddles mounted on the steering column.

PLUG-IN HYBRID MOTOR

The plug-in hybrid motor provides a powerful, fluid and efficient driving experience in all conditions. Enjoy the versatility of all-electric mode for a silent performance with reduced vibrations & sharp acceleration, thanks to instant motor torque.

The 1.6-litre engine produces a combined 165kW for a rewarding & stimulating driving experience.

LITHIUM-ION BATTERY

The 300V high-voltage battery is the Lithium-ion type and is conveniently located under the rear seats to preserve cabin and cargo space.

The battery comes with an 8-year or 160,000 km warranty.¹

1. Whichever occurs sooner, from vehicle's warranty start date.

CHARGING YOUR PEUGEOT PLUG-IN HYBRID

Whether home charging or public charging, your PEUGEOT plug-in hybrid is designed to make life easy and to keep you mobile wherever you are.

PRIVATE CHARGING

A Wallbox is PEUGEOT'S recommendation for optimum charging at home.

This method will efficiently charge your vehicle in just a few hours.

PUBLIC CHARGING

Utilising the expanding network of public infrastructure is an easy way to top-up range on the go, with many easy to use apps available on your smart phone to easily identify the closest location.

MYPEUGEOT APP

Use the MyPeugeot app to access your owner's handbook online, check servicing & maintenance schedules, as well as monitoring fuel tank levels and odometer readings.

It's also perfect for trip planning - sending that information to your car's built-in navigation - or checking where you parked.

DRIVING RANGE

Enjoy travelling both short and long distances in your PEUGEOT plug-in hybrid, including a driving range of up to 55km WLTP¹ in 100% electric driving mode.

Tips to help optimise the driving range of your PEUGEOT:

THE POWER INDICATOR

Monitor energy consumption in real time, using the indicator on your dashboard, for efficient management of your vehicle's driving range.

REGENERATIVE BRAKING

When you release the accelerator the electric motor act as a generator, slowing the vehicle and recharging the battery.

1. Figure based on WLTP (Worldwide Harmonised Light Vehicle Test Procedure) static laboratory combined average city and highway cycle test, which measure, energy consumption, range and emissions in passenger vehicles, figures stated for the purposes of comparison amongst vehicles tested to the same technical procedures only. Actual real world range results will vary depending on a combination of factors including but not limited to load, driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions.

*Overseas model shown

BESPOKE SEATING COMFORT

Sumptuous, wraparound driver and passenger seats of full grain Nappa leather¹ impart optimum comfort – with superior ergonomics, multi-point electric adjustment, a multi-point massaging system, driver seat memory and heating in the base and lower back rest.

While Active Suspension allows the driver to control suspension by selecting normal, comfort or sport mode.

PERFECT SOUND

The sophisticated system from premium French Hi-Fi producers FOCAL® boasts pure and detailed sound reproduction for those seeking leading-edge sound quality.

Equipped with ten speakers and the finest acoustics technologies, the PEUGEOT 508 GT offers crystal clear sound.

1. Leather appointed seats are a combination of genuine leather & synthetic materials for durability and are not wholly leather.

SAFETY

LIGHTS

The distinctive front light signature consists of Full LED headlamps with automatic elevation correction, LED front indicators and static cornering lights meaning you see and are visible all the time, for optimised driving conditions and safety.

The rear is equipped with LED signature 'Claw Effect' lights that adjust automatically according to the light conditions, ensuring you more visibility.

SAFETY TECHNOLOGY

Featuring an extensive range of technological equipment, the PEUGEOT 508 is fitted with the brand's latest -generation Advanced Driver Assistance Systems that reinforce safety, including Highway Positioning Assist with Lane Keeping Assist, Blind Spot Detection & Advanced Autonomous Emergency Braking.

SEMI-AUTONOMOUS DRIVING

Using the Adaptive Cruise Control system with Stop & Go function combined with Lane Positioning Assist, your car's speed automatically adapts to that of the car ahead. This keeps the car in the driver's chosen position, while also maintaining your trajectory on the road with minimal input.
